- II.1 List of CBC programmes to be continued without major changes as compared to the current programme area geography
- II.2 List of CBC programmes where the Commission is proposing adjustments as compared to the current programme areas, with explanations for these adjustments
- II.3 List of new CBC programmes

III. IPA CBC PROGRAMMES

- III.1 Current IPA CBC programmes
- III.2 New IPA CBC programmes
- III.3. Modified IPA CBC programmes

I. TRANSNATIONAL COOPERATION PROGRAMMES	
PROGRAMMES	OBSERVATIONS/COMMENTS
Arctic and North (former Northern Periphery)	In line with possible future sea basin or other approaches, taking into account the current intensified interest in the Region, and as outlined in the recent Arctic Communication.
Baltic Sea Region	Non Applicable because the Commission is not proposing any change to the geography of this programme
North West Europe	Non Applicable because the Commission is not proposing any change to the geography of this programme
North Sea	Non Applicable because the Commission is not proposing any change to the geography of this programme
Atlantic Area	Proposal to add Madeira, the Azores and the Canary Islands to the current programme with a view to align within the scope of the Atlantic Strategy
Alpine Space	Non Applicable because the Commission is not proposing any change to the geography of this programme
Central Europe	Proposal to exclude Ukraine further to low participation in current programme
South West Europe	Inclusion of Principauté d' Andorra at their request
Mediterranean	Non Applicable because the Commission is not proposing any change to the geography of this programme
South East Gateway	Covers the Adriatic, Ionian and related areas. The creation of a new Danube

	programme makes it necessary to create a new transnational programme in south-east Europe to ensure continuity of cooperation and guarantee the implementation of any future strategy or intensified cooperation approaches (macro-regional or sea basin). This programme would replace the remaining parts of the current South East Europe and the IPA CBC Adriatic programmes. It would include Italy, Slovenia, Croatia, Cyprus, Malta, two Austrian Länder (Kärnten and Steiermark) as MS and Albania, Bosnia and Herzegovina, Montenegro, Serbia and Fyrom as third countries
Danube	A new Danube programme would cover the same geographic areas as the EUSDR. It would thus include some parts of the current Central Europe and considerable parts of the South East Europe programme. There is a clear acceptance for a new Danube transnational programme to include the German Länder of Baden Württemberg and Bayern, as well as the Czech Republic and Ukraine to facilitate its EUSDR participation
Caribbean Area	Including Martinique/Guadeloupe and OECS
Plateau des Guyanes	Including CBC FR/Surinam/Brazil
Indian Ocean Area	Including Mayotte as new OR
